School Accountability Report Card

Reported Using Data from the 2018-19 School Year

Published During 2019-20

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2019-20)

Burbank High is one of two comprehensive high schools in the Burbank Unified School District. The growing cultural and linguistic diversity of the school mirrors the demographic changes occurring in our community.

The seven goals include:

1. Improve teaching and learning strategies and techniques. (Example: SADAIE, teaming, collaboration, critical thinking, problem solving, alternative assessment, senior project.)
2. Restructure the delivery of curriculum (school day, teaching techniques, academies, school to work, career paths, vocational education, senior internships, clusters, 9th/10th teams, common release or prep time, integrated and interdisciplinary classes).
3. Utilize technology in teaching the CORE curriculum.
4. Effectively prepare 9th grade students for success in high school.
5. PBIS (Respectful, Responsible, Compassionate): Focus on citizenship and respect for others (common standards-school wide and between departments, raise attendance/grade rates).
6. Develop and sustain effective communication with staff, students, parents, and community.
7. Provide for more parent involvement.

Burbank High School Mission Statement:

The Burbank High School community supports and promotes an environment where students experience a challenging, rigorous, and meaningful curriculum; value academies and learning to respect themselves and others; and develop lifelong learning skills in order to become responsible, productive citizens in a diverse, changing society.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

School Facility Conditions and Planned Improvements (Most Recent Year)

The facility is in Good repair. Normal maintenance and upkeep is being performed. The site wireless network infrastructure was replaced. No other improvement projects are scheduled at this time. The District takes great efforts to ensure that all of its schools are clean, safe, and functional. To assist in this effort, the District uses the “Facility Inspection Tool” (FIT) developed by the State of California Office of Public School Construction. Deficiencies noted are referred to Facilities Services and/or the site for immediate correction. To review the complete results of this survey please visit Administrative Services at the District Administration Building.

School Facility Good Repair Status (Most Recent Year)

Using the **most recently collected** FIT data (or equivalent), provide the following:

- Determination of repair status for systems listed
- Description of any needed maintenance to ensure good repair
- The year and month in which the data were collected
- The overall rating

Year and month of the most recent FIT report: 12/17/19

Overall Rating	Good	

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in ELA and Mathematics for All Students

Grades Three through Eight and Grade Eleven

Percentage of Students Meeting or Exceeding the State Standard

Subject	School 2017-18	School 2018-19	District 2017-18	District 2018-19	State 2017-18	State 2018-19

Mathematics (grades 3-8 and 11)	40	44	50	51	38	39

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Career Technical Education Programs (School Year 2018-19)

Each BUSD High School strives to graduate students who are fully capable of making the transition from school to the working world. The school’s workforce preparation programs include school-to-work activities through business partnerships in the community, as well as employability and skill-building opportunities through middle and high school classes offered by the District or local Community Colleges. All Career Technical Education (CTE) courses incorporate the California Career Technical Education Model Curriculum Standards; satisfy the District’s graduation requirements, and/or the A-G entrance requirements for the UC/CSU system. CTE classes offered include such courses as animal care, animation, engines, business, computer application, construction, digital applications, Fire and Law Enforcement, photography, marketing, and other technology classes. A list of specific CTE courses offered is contained in the District Career Technical Education Guide <https://www.burbankusd.org/CTE>

The school addresses the needs of all students, as well as those in career preparation, through professional development, guidance and counseling from school personnel regarding career paths and courses of study. The District also sponsors and annual College and Career Fair where more than 100 colleges and university have exhibits along with 30 or more career representatives who share aspects of their chosen field. In addition, the District has created career pathways for students that lead to post secondary programs at a variety of community colleges through the College and Career Pathways Partnership program with the Los Angeles Community College District (LACCD)
